

Collection order photovoltaic (PV) modules

The undersigned company hereby instructs SENS eRecycling to collect the specified quantity of photovoltaic modules. SENS eRecycling considers the possibility of free collection for each collection order and informs the sender of the decision within a reasonable period of time. Please allow a period of five days for order processing.

	Depositor	Collection location
Company		
Address		
Postcode, city/town		
Contact person		
Telephone		
E-mail		

	Quantity of paletts	Collection date
Palettised PV modules		

Please note: The depositor is responsible for ensuring secure packaging for transport.

Type of photovoltaic modules

- Crystalline silicon modules
 Modules containing hazardous materials
 Thin-film modules
 Module type unknown

Manufacturer

Please note: PV modules from First Solar must be returned via this company.

Quantity and weight of PV modules

Quantity of PV modules	Weight per PV module (kg)	Total net weight (kg)

Power inverters and other electronics must be handed in to official SENS collection points in the region.

Reason for disposal

- End of use
 Material defect
 Transport or assembly damage
 Other: _____

Condition of PV modules

- Intact
 Other (broken, delaminated, etc.)
 In individual parts, or with parts removed

Date _____

Signature _____

Please send the signed document by e-mail to info@eRecycling.ch.
